

VT-706 VERTICAL TEXTILE APPARATUS (FLAMMABILITY)

Made by: Deatak (USA).

Model: VT-706

Many European and ISO flammability tests require apparel fabrics and vertically oriented fabrics to be tested with an instrument such as the AutoFlamm. **This includes home textiles such as curtains or drapes and bedding or table cloths that will hang down from some furniture.** This automated instrument has a motor driven gas burner and micro switches activated by trip threads. VT-706 has clearly marked settings for the most common standards for easy set up. The handheld touchscreen controller has all of the most popular standards preprogrammed.

Testing Standard:

EN ISO 6940, EN ISO 6941, BS 5438, BS 5722, BS 5867, BS EN 14878, BS EN 13772, CAN/CGSB 155.1, CAN/CGSB 4.2, 27.10, EN ISO 15025, EN 1103

FEATURES:

- Remote touch screen controller.
- Motorized test activation.
- Micro switches activated by trip threads.
- Clearly marked settings for popular standards.
- Optional radiator assembly.
