

TF134C FABRIC DRILL-PROOF TESTER (SMALL BOX METHOD)

Product information:

- Used for testing the performance of various fabrics to prevent drilling or feathers from leakage between joints.

Testing Standards: GB/T12705.2 GB/T14272-2021 Appendix D Small Box FTMS191A (with rubber ball).

Specification:

- Rotary box size: 450mm * 450mm * 450mm.
- Rotary box speed: (20 ~ 60) R/min (positive and negative).
- The number of rotation setting: (1 ~ 9999) times.
- Silicone rubber special-shaped ball:
 - Quantity: 16
 - Shao Er hardness: (55 + 5)
 - Size: A quality: (23.75 + 0.5) g
 - Upper circle ($\phi 31 \pm 2$)mm × lower circle ($\phi 37 \pm 2$)mm × height (22± 2)mm
- Weight: 60 Kg
- Dimensions (L× W× H): 850× 650× 800mm
